Track your resources and get peace of mind.

Follett Destiny Resource Manager lets you track all your district's valuable resources in one place. Our onsite (6-hour) and virtual (3-hour) courses provide you with opportunities to learn how to:

- Create and organize resource templates
- Book resources for future dates
- Transfer and share resources between sites
- Catalog and circulate resources by patron, teacher, class, department, or location

Managing Your Resources and Defining Templates

Discover the best way to organize your resources. Decide what information to record for each resource, and consider who is responsible for them.

Resource Manager gives you flexibility to organize your valuable assets by creating templates to properly track and account for them. In this course, you'll also learn how to:

- Discover the tasks you need to perform throughout the year
- Set distribution policies for the district

Destiny Security Setup

Protect your district's sensitive data, and ensure users can only access the Destiny features they need. In this course, you'll also learn how to:

- Understand the Destiny user structure.
- Create user accounts.
- Assign access levels with permissions, allowing each person to do their job.

Destiny Resource Manager Essentials

Resource Manager helps you track your assets from purchase date to retirement, which includes cataloging, circulating, and setting up resource policies. In this course, you'll also learn how to:

- Navigate Destiny Resource Manager
- Configure Resource Manager for your school
- Find help and training resources

Resource Import Converter

Resource Manager has a downloadable Resource Import Converter you can use at the district level to easily import an XML file of resource data into Destiny. In this course, you'll also learn how to:

- Define source fields in the Resource Import Converter
- Map key fields to a resource type in the Resource Import Converter
- Identify the steps to import the XML file into Resource Manager

Transition from Textbook Manager to Resource Manager

Resource Manager has enhanced functionality, such as flexible loan periods, automatic distribution of eTextbooks to students, and the ability to globally update data. In this course, you'll also learn how to:

- Move resources out of the textbooks branch of the tree
- Set up resource groups and policies
- Run resource reports

Build your own Destiny Resource Manager training

In addition to the standard courses, a Follett Destiny trainer can help you choose from a variety of Destiny Resource Manager training topics to meet your needs. Select from the following categories to build your 2- or 3-hour live webinar OR 6-hour onsite workshop at your district:
