

# Unleash the Power of Aspen SIS: Smarter Data Management for Stronger Schools

Designed for K-12 school districts, including administrators, teachers, IT staff, parents, and students, Follett Aspen® Student Information System is a powerful, cloud-based, all-in-one solution designed to streamline operations and enhance the educational experience. With an intuitive interface and robust features, Aspen SIS simplifies student data management while ensuring top-tier security and compliance.

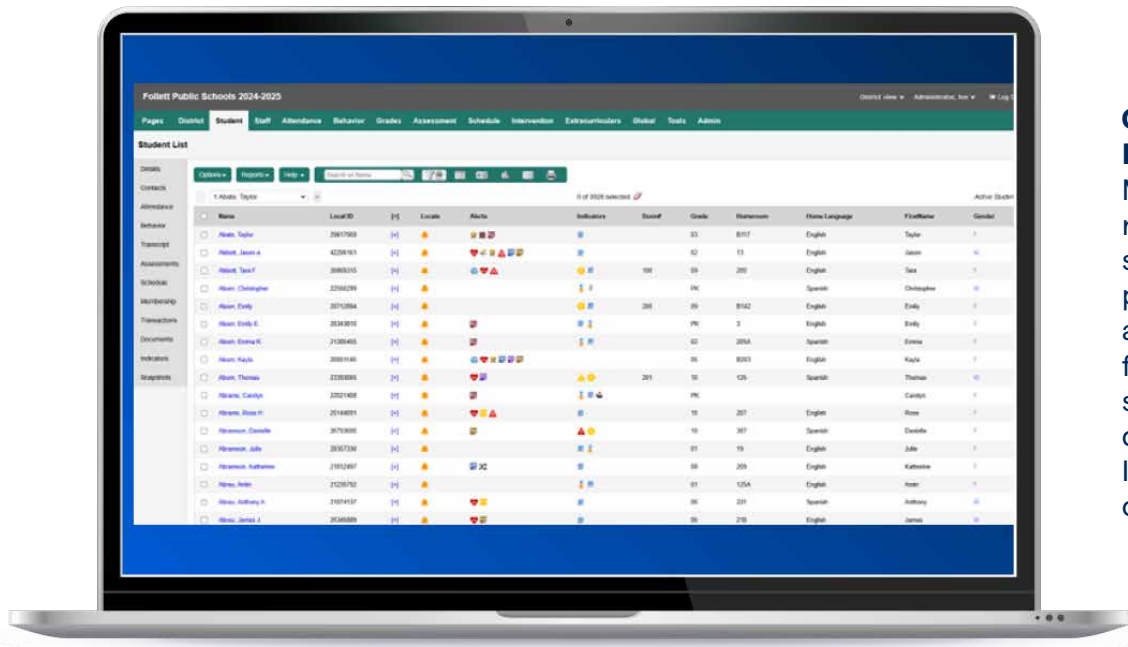

**Empower your district with smarter, more efficient workflows – because better data means better education.**

The platform's robust data management capabilities ensure that all information remains accurate, up-to-date, and securely accessible only to authorized users. With industry-leading security measures, Aspen provides districts and schools with a trusted solution for protecting sensitive student data – offering greater peace of mind in an era of increasing cyber threats.

# Sophisticated Data Management

Managing student data efficiently is paramount. Benefit from a centralized platform for storing and accessing all student-related information including academic records, attendance, behavior reports, health information, and much more.

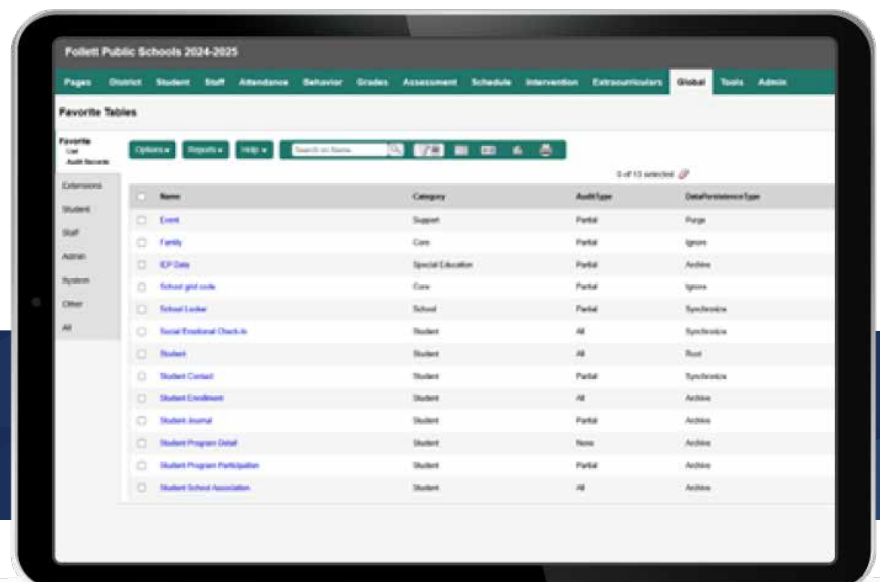

## Comprehensive Records

Maintain detailed records of each student's academic performance, attendance history, fees and fines, schedules, behavioral documentation and IEPs, and more in one centralized system.

## Integration Hub

Quickly provision classroom and eLearning tools while seamlessly integrating Aspen with legacy applications and third-party technologies through unique district-defined API endpoints – to create a fully connected and efficient ecosystem.

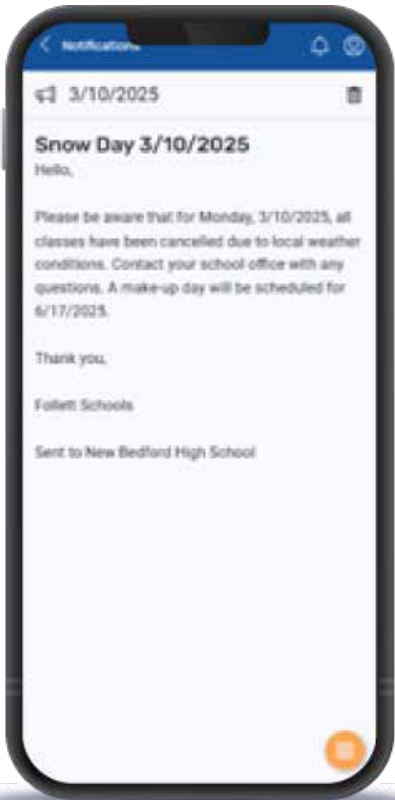

## Secure Access

Role-based access controls ensure only authorized personnel can access sensitive student data at the right time, supporting FERPA compliance and safeguarding privacy against unauthorized access and breaches.

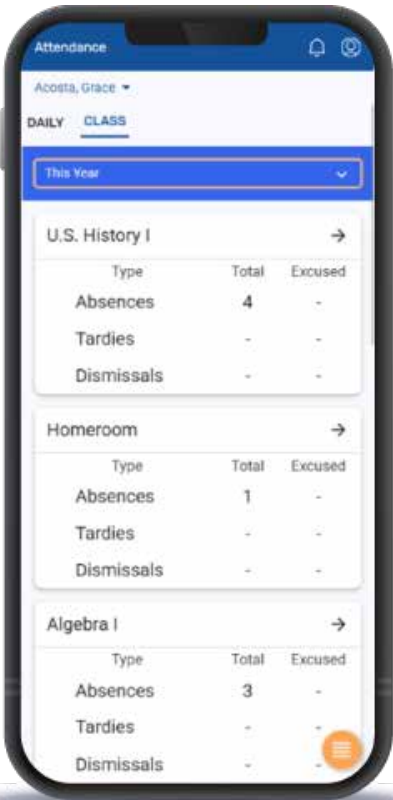

# Real-Time Communication and Collaboration

Effective, timely communication between teachers, students, and parents/guardians is crucial for student success. Facilitate seamless communication and collaboration through the integrated messaging system and parent portal in Aspen.

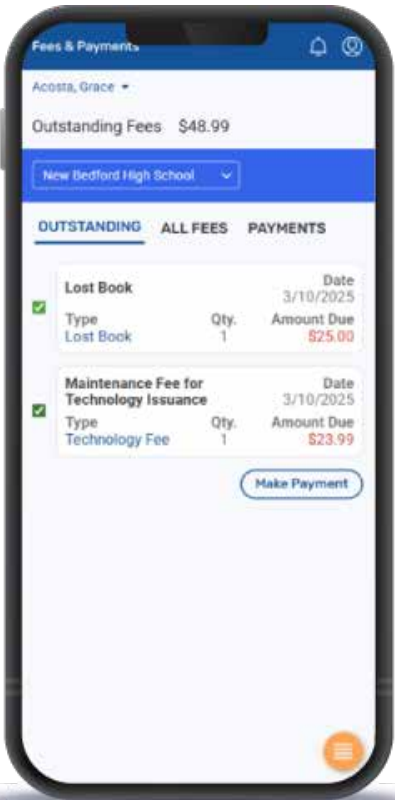

### Parent Portal

Provide parents/guardians with real-time mobile access to their child’s academic progress, attendance, school announcements, and fee management, fostering greater involvement and open communication.

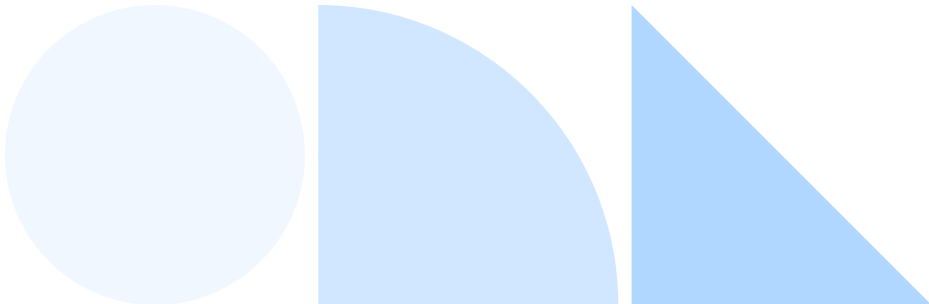

### Educator Collaboration

Enable teachers to share resources, templates, lesson plans, and student supporting documentation, enhancing collaborative educational efforts at the site level and within the district.

### Student Engagement

Students can track their own progress, submit assignments, and communicate with teachers beyond the classroom, promoting active engagement in their education via a secured and monitored portal.

---

## Tailored, Scalable, and Fully Integrated

Aspen aligns to your district's distinct challenges. With comprehensive customization, Aspen becomes an extension of your district-wide operations. Combined with industry-leading scalability, Aspen ensures consistent performance and reliability as your district grows, providing a seamless and future-proof solution. With a configurable architecture and robust third-party integrations, it's perfect for districts of all sizes, from small private institutions to large public systems.

### **Flexible Configuration**

Customize fields, forms, and workflows to match your school's unique processes and requirements.

### **Scalability**

Easily scale the system to accommodate growing student populations and expanding administrative needs.

### **Full Customization, Always Compliant**

Modify fields, workflows, reports, and dashboards to align with state-specific requirements.

---

## Secure and Compliant

Protect your district's most valuable assets: your students. Aspen has robust security and access controls that proactively safeguard student data, building community trust and protecting your district's reputation. Navigate the challenges of state reporting with confidence. Aspen streamlines compliance and strengthens security, ensuring peace of mind in an era of complex regulations.

### **Audit-Readiness**

Mitigate compliance risk with real-time SIF and Ed-Fi reporting to ensure you're consistently audit-ready with state and federal reporting.

### **State Reporting Business Framework**

Ensure timely software updates to match regulatory changes without requiring a full product upgrade.

### **Bank-Grade Security**

Build trust and maintain compliance with advanced encryption, bank-grade security, and role-based access control (RBAC), ensuring student data is protected and only authorized personnel have access.

# Advanced Reporting for Data-Driven Decisions

Effective data-driven decision-making and less time spent on manual data management is key to improving student success. Get advanced reporting and real-time insights into student performance and school operations with intuitive dashboards that complement your workflows..

## Custom Reports

Generate detailed reports on attendance, grades, fee and fine assessments to support data-driven decision-making.

## Data Visualization

Use charts, graphs, and dashboards to highlight data trends and pinpoint areas for immediate improvement.

## Predictive Evaluation

Identify at-risk students and implement proactive interventions for their success, wherever they are within the district.

## Automated Task Management & Workflows

Administrative efficiency is crucial for the smooth operation of any district. Enhance productivity with highly configurable and automated tasks, freeing up valuable time for staff to focus on more strategic initiatives and student outcomes.

Analysis

---

## District-Wide Support of Diverse Learning Needs

Ensure all students have the opportunity to succeed with the tools district administration needs to track and manage individualized education plans (IEPs), accommodations, and interventions.

### IEP Management

Efficiently create, track, and oversee IEPs, ensuring students receive the support and resources necessary to thrive.

### Accommodations Tracking

Record and monitor accommodations for students with special needs, ensuring compliance with state and district-wide educational regulations.

### Intervention Monitoring

Track the effectiveness of interventions and adjust strategies as needed to support student success in real time.

---

## Industry-Leading Customer Support

### Deep Industry Expertise

With an average tenure of 20 years in education, each support team member understands your challenges and knows how to solve them efficiently.

### Continuous Learning & Resources

Access ongoing training, webinars, and a rich knowledge base to keep your team informed and empowered.

### Trusted Partnerships

We build lasting relationships by understanding your needs, providing personalized support, and working alongside you as a true partner in success.

---

## Key Features

**Attendance & Scheduling:** Automated tracking of student attendance, class schedules, and course planning for individualized learning paths

**Automated Workflows:** Automation of communications, notifications, and approvals streams district-wide

**Cloud-Based & On-Premises Options:** Flexible deployment options to meet district needs

**Communication Tools:** Messaging and notification systems to facilitate real-time communication between educators, students, and families

**Continuing Education:** Manages nontraditional learning programs, such as adult education, professional development, and community courses

**Data Management & Reporting:** Customizable reports, dashboards, and compliance tracking to support data-driven decision-making

**Fee & Payment Management:** Management of student fees and payments via a secured payment portal powered by Stripe

**Gradebook & Assessment Tracking:** Recording, calculating, and reporting of grades with built-in standards-based and traditional grading options

**Integration Capabilities:** Seamless connection with learning management systems (LMS), state reporting tools, and third-party applications

**Mobile Access:** Parents/guardians can access student information anytime, anywhere, ensuring flexibility and convenience on the go

**Parent & Student Portal:** Secure access for parents and students to view grades, assignments, attendance, and school announcements

**Personnel and Professional Development:** Webinars, workshops, and course management tools to enhance educator and administrator proficiency

**Security & Compliance:** FERPA compliant, SOC 2 certified, and secured with role-based access controls (RBAC), single sign-on (SSO), multi-factor authentication (MFA), and Active Directory (AD)

**Social and Emotional Module:** Tracking, supporting, and enhancing students' well-being beyond academics via emotional and behavioral indicators to support interventions

**Student Engagement:** Online course work submission, grades and assignment reporting, classroom announcements, forums, content folders, and more

**Student Records Management:** Centralized database for storing student demographics, health records, disciplinary actions, and academic history
